### WARRANTY TERMS

The 24 months guarantee is valid from the date of purchase (as proven by the sales receipt). It covers, in the event of manufacturing defects, replacement of the material found to be defective and labour costs.

Warranty claims must always be exercised through the dealer where the product was purchased.

Replacement or repair of the unit does not prolong its duration.

Upon expiration of the aforementioned period, the guarantee is no longer valid and service will be provided manufacturer's ex-works with costs charged for replaced parts, labour and transport, based on current prices.

The guarantee is voided by the following causes:

- external influxes
- unprofessional installation and maintenance
- failure to comply with instructions for use
- damage caused by transport
- uncontrollable events
- inappropriate use
- use of non-original spare parts
- arbitrary tampering
- different fuel
- normal wear
- exposure to salt or corrosive agents
- damage caused by poor cleaning or maintenance.

and any causes not attributable to the manufacturer.

The warranty is also excluded on all painted parts.

Before proceeding with warranty processing, Parker Srl will request evidence of any alleged defect, together with its description, model number and serial number of the product in question.

The manufacturer shall not be held liable for any direct or indirect damage to individuals or property caused by original defects or anomalies in the equipment or resulting from forced suspension of its use.

### WARRANTY EXTENSION

The legal guarantee of 2 years may be extended to a further 2 years free of charge by registering the product.

It is important to keep the original purchase receipt, which will be requested during the registration phase, together with model code, its serial number and name of the dealer where the product was purchased.
